

# Meeting Notes / Discussion Points

**Meeting Date: 28 April 2026**

## 1. Register Button Visibility (Correction)

- The **Register button** is currently not visible.
- It is placed at the **bottom of the screen**, making it difficult for users to find.

### Suggestion:

- Place the **Register button** just below the **Login button** for better visibility and improved user experience.
- 

## 2. Privacy Policy & Terms (New)

- Add user consent checkboxes:
  - ☐ I agree to Privacy Policy
  - ☐ Terms and Conditions

### Placement Options:

- Login Screen **OR**
  - Subscription Page
- 

## 3. Categories (New)

- Avoid too many categories; keep only **important/main categories**.
- Users should have the option to **add new categories**.

### Conditions:

- Must be **reviewed by admin**
- Must be **approved before becoming visible to all users**

### Localization Support:

- Malayalam

- English
- 

#### 4. OTP System (Updates)

- Current system: **Email OTP**

##### Requirement:

- Add **Phone Number OTP** for better verification and security.
- 

#### 5. Jilla Coordinator (New)

- This role is **not required**.

##### Decision:

- Can be **removed** or **ignored**
- 

#### 6. Registration & Revenue Sharing (Updates)

- Discussions covered:
  - User **registration process**
  - **Revenue / percentage distribution**

##### Action Required:

- Finalize and provide a **clear structure and clarification**
- 

#### 7. Subscription Notification (Updates)

- Implement notification system for:
  - **1-year subscription expiry reminder**

##### User Experience:

- Users should receive alerts before expiry
- Prompt users to **renew subscription**

**Meeting Date: 2 May 2026**

### **Discussion: Third-Party Requirements for App**

A **dedicated email ID** is required for managing app-related services.

### **Required Integrations & Services:**

1. **Play Console Account**
    - Required to deploy the app on the **Google Play Store**
  2. **SMS Integration**
    - Used for sending **OTP to phone numbers**
  3. **Payment Gateway Integration**
    - Required to handle **subscription payments**
  4. **Push Notifications**
    - To send **alerts and updates** to users' mobile devices
  5. **Server (Hosting)**
    - Required to **host application files and backend services**
  6. **Domain**
    - Needed for website/app identity
    - Example: *yourapp.com*, *yourapp.in*
  7. **Cloud Storage (Optional)**
    - For storing **images and media files**
- 

### **Next Steps**

- Third-party providers and integration details will be **shared soon**
- Required documents and credentials will be **collected and finalized**
